

20 September 1950

The Canadian Lakehead Wireless Experimenters

A Meeting of The Canadian Lakehead Wireless Experimenters was held in the Fort William Public Library Sept. 20 at 7:30 p.m.

The meeting was opened by President Bert Tamblin - VE3ANP and the minutes of the last meeting also the treasury report was read by Secretary Frances Tamblin - VE3BVT.

A discussion was then held as to how the meeting should be called. It was decided that cards should be sent at least three days before the meeting to be held.

Methods of making the meetings more interesting to the members was then discussed and the following was decided upon:

1. Auction Sale
2. Talks on radio especially for new members
3. See about holding at the Naval Barracks, Port Arthur and using their equipment.

It was brought to the attention of the club that we have very little equipment to use should an emergency arise. Canada is setting up Civil Defence posts across the country and an investigation is to be made as to whether the Lakehead Experimenters could join up with the Civil Defence system of both Port Arthur and Fort William. Ernie Reid - VE3BIX was named to investigate the possibility in Fort William and Ralph Parker - VE3HU in Port Arthur. Ralph Parker - VE3HU and Harold Peerenboom - VE3EAI said they would be willing to design some equipment for emergency use and some members could build these emergency sets.

The meeting was closed by Bill Roberts - VE3ARN and seconded by George (*The original was incomplete...Ed.*)

Initialled: Pat O'Shea - VE3FW

Ralph Parker - VE3HU
